

GPUは使用出来ていませんでした。
出力はされましたが、下記のメッセージが延々と出てきます。

Some weights of the model checkpoint at cl-tohoku/bert-base-japanese-char were not used when initializing BertForMaskedLM: ['cls.seq_relationship.weight', 'cls.seq_relationship.bias']

- This IS expected if you are initializing BertForMaskedLM from the checkpoint of a model trained on another task or with another architecture (e.g. initializing a BertForSequenceClassification model from a BertForPreTraining model).

- This IS NOT expected if you are initializing BertForMaskedLM from the checkpoint of a model that you expect to be exactly identical (initializing a BertForSequenceClassification model from a BertForSequenceClassification model).

transformers\pipelines\base.py:1043: UserWarning: You seem to be using the pipelines sequentially on GPU. In order to maximize efficiency please use a dataset
